

ELITE INDOOR CURVED

CRE-2110

Custom-built for your home, Bruno's Elite curved stairlift beautifully flows along the lines of your staircase. The Bruno Elite Curve offers the unparalleled steady, comfortable ride only achieved by a bespoke design.

190 kg Lift Capacity

Hand-crafted Excellence:

- Custom-crafted rail made to your stair's exact specifications for a supremely smooth ride
- Remarkable stability around every corner from start to finish

Relaxing Comfort:

- Padded, spacious seat with multiple height adjustments
- Adjustable width armrests and footrest height

Reliable Performance:

- Unique 190kg lift capacity
- Battery-operation to ensure operation in power interruptions

"Bruno has been a real life saver. I have a custom curved stairlift to go upstairs, and an Elan straight stairlift to the lower level. Bruno works, and it's low maintenance."

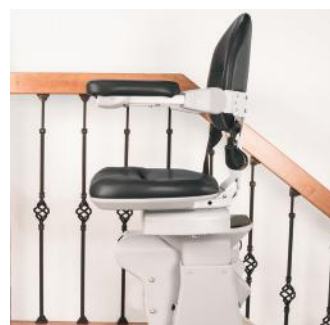

OPTIONS

Top or bottom park position extends rail away from the staircase.

Power folding footrest automatically flips up/down when seat is raised/lowered.

Power swivel seat. Control on chair armrest or wireless call/send.

Mid-park and charge station for staircases with middle landings.
